FOR IMMEDIATE RELEASE

Rotech Healthcare Issues Statement on Investigation

ORLANDO, Fla. – May 1, 2003 – Rotech Healthcare Inc. (OTC: ROHI.PK) (the “Company”) today announced that, on April 30, 2003, federal agents served search warrants at the Company's corporate headquarters and four other facilities in three states and were provided access to a number of current and historical financial records and other materials. The agents also served a grand jury subpoena on the Company on behalf of the United States Attorney's Office for the Northern District of Illinois relating to the same information. The Company is cooperating fully with the investigation; however, it has not been informed by the government of the subject matter of the inquiry. The Company can give no assurances as to the duration of the investigation or as to whether or not the government will institute proceedings against the Company or any of its employees or as to the violations that may be asserted. The Company previously received informal requests for information from the Division of Enforcement of the Securities and Exchange Commission related to matters that were the subject of the Company's previously disclosed internal investigation regarding VA contracts, and has already provided documents in response. As a health care provider, Rotech is subject to extensive government regulation, including numerous laws directed at preventing fraud and abuse and laws regulating reimbursement under various government programs. The marketing, billing, documentation and other practices of health care companies are all subject to government scrutiny. To ensure compliance with Medicare and other regulations, regional carriers often conduct audits and request patient records and other documents to support claims submitted by the Company for payment of services rendered to patients. Similarly, government agencies periodically open investigations and obtain information from health care providers pursuant to legal process. Violations of federal and state regulations can result in severe criminal, civil and administrative penalties and sanctions, including disqualification from Medicare and other reimbursement programs.
